Curtis: Hope all is well in the JFO.... I think it would be helpful for all if you could join our 5:30 briefing call with the REOC back in Dallas each night.... One thing that came up on tonight's call was the fact that a lot of the CIC's have already arrived at the ICPs and are awaiting their informational packets to hand out to the public.... I just want to be sure these packets of information are vetted through our state counterparts (and your USCG counterpart) before we give to the CICs and the public.

Just let me know if you have questions/concerns..... thanks.
